

SearchBlueprint affiliate program

Earn 20% of every payment your referrals make. For life. They get 10% off.

SearchBlueprint gives businesses and agencies a complete SEO and AI-search plan in minutes: audit, keyword map, site structure, content plan and tracking, across Google, ChatGPT, Gemini and Perplexity. Every plan starts with a free audit, so the product sells itself once someone runs it on their own website.

The commission

20% recurring, for the lifetime of the customer. Renewals pay the same as the first payment. There is no cap and no 12-month cutoff.

The arithmetic on the public pricing (\$149 per website per month, or \$99 per month billed annually):

- One monthly-plan website: \$29.80 per month, ongoing
- One annual-plan website: \$237.60 per year, every year
- Five annual-plan websites: \$1,188 per year, which covers a plan of your own

Commission becomes payable once at least two of your referrals have a paid subscription. It still accrues before that and the whole balance unlocks the moment the second one starts paying, so nothing is lost by getting there slowly.

What your referrals get

10% off list price, applied automatically at checkout, for as long as they stay subscribed. There is no code for them to remember. Your 20% is calculated on what they actually pay.

How it works

1. Sign in at searchblueprint.io/affiliate/dashboard and accept the programme terms. Your referral link is issued on the spot — there is no application to wait on.

2. Share the link. Clicking it attributes the visitor to you for 90 days, and the referral is bound to their account when they create it.
3. You earn 20% of everything they pay, first payment and every renewal. Your dashboard shows clicks, sign-ups, who is paying and what you have earned, updated as each payment clears.
4. Set your payout method on the dashboard. Payouts are monthly, once your payable balance passes \$50, and we confirm each one with you before sending it.

Who this is for

Agencies with contacts they don't serve directly, web designers whose clients ask about SEO after launch, creators and educators teaching SEO or AI search, and newsletters or communities read by business owners.

The rules

Commissions are for first-time SearchBlueprint customers only. No self-referrals, no accounts created to bypass pricing, no duplicate domains, emails or payment methods, and no existing customers adding new sites. No bidding on SearchBlueprint brand terms in paid search. No spam or misleading claims: say what the product does, never "guaranteed rankings". Customers with several websites should use the multi-site plans. We may review any referral at any time.

The full terms are the ones shown in your affiliate dashboard, and accepting them is what issues your link.
